Executype PA Introduce Start-Up and Small Business Packages

Executype PA are proud to announce the introduction of their new packages specifically catering for start-ups and small businesses.

The team at Executype PA pride themselves in delivering a unique and efficient service to businesses of all sizes. They know how difficult it can be for start-ups to juggle all of the work they have to do when they are starting out but also realise that budgets can be tight. The new packages now available from Executype PA will fill the gap that start-ups and small businesses sometimes find themselves with.

As the business grows they may find that they want to move on to Executype PA's general packages for call answering and use their administration service on an ad-hoc basis as and when they need it.

These new packages include support for call answering, social media and administration.

Prices start from only £35 per month and for this low investment you will get:

- 5 calls answered per month
- Social media (Twitter and Facebook) 1 hour per month
- General administrative support 1 hour per month

There are 5 packages to choose from so there is a package to suit all requirements and all budgets. You can then move from one package to another, month on month, as your needs change.

You can view all of the packages on our website <http://www.executypepa.com/virtual-office>.

If you would like to know more about these packages please email carol@executypepa.com or ring 0191 5009742, we're waiting for your call.
